

Breathable Membranes for Rainscreen Wall and Sloped Roof Systems

SRP 1" D.S. "Double Stick" Seam Tape

Basic Use

This self sealing adhesive creates a water tight, conformable seal between layers of SRP AirOutshield, SRP AirOutshield ROOF and at junctions with other materials. Do not use with AirOutshield UV.

Composition

DoubleStick Tape utilizes a 100% solids formulation of synthetic resins, thermoplastics, non-curing rubbers (not butyl), with a built in primer, sandwiched between two siliconized release liners.

Technical Data

Standard roll sizes 1" X 50'
Total thickness standard is 30mils
Adhesion 19lbs/in width
Low temp flexibility Excellent
Application temp. range -25°F - > 150°F
Temperature range -70°F - >200°F
Pliability No cracks in membrane
Water vapor test (ASTME 96B) .005 grms/100" sq./24hrs/100°F
Permanence .001 perms maximum
Elongation >500%
Shelf life Up to 5 years

Surface Preparation

Surface must be clean and dry. Moisture, dust, dirt, and other foreign matter should be removed. Remove oil, grease, and etc. with a suitable cleaner.

Application

To apply the DoubleStick, remove the release liner on one side of the DoubleStick and apply to the surface to be bonded. Remove the 2nd release liner, apply pressure using a small seam roller or similar to fully bond tape to the surfaces.

Warranty

The information, and in particular, the recommendations relating to the application and end-use of SRP Canada products, are given in good faith based on SRP Canada's current knowledge and experience of the products when properly stored, handled and applied under normal conditions. In practice, the differences in materials and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any recommendations, or from any other advice offered. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users should always refer to the most recent issue of the Technical Data Sheet for the product concerned, copies of which will be supplied on request or can be accessed in the Internet under www.srpcanada.ca.
